

ULTIMA PRINT TO PACS

Import your documents into your PACS in just 1 click

Ultima Print to PACS is the ideal solution for importing and integrating documents into your PACS archiving system. Easy to use, the Ultima Print to PACS solution converts your printed documents into DICOM images and assigns them to: a new study, a stored study on a DICOM server, or a patient study retrieved from a DICOM Worklist

Features

- Convert Windows printing to DICOM images
- Quickly send Windows printable documents to the PACS
- Select, edit and sort images before sending to the PACS
- Create a study based on a DICOM Worklist entry
- Create a study based on an existing patient in the PACS
- Assign to an existing study in the PACS
- Configure easily and simply
- Manage users
- View sent history
